System partners	>40
Focus	Physical AI & Outdoor Robotics
Technology	Autonomous mobile robots for outdoor and all-terrain use
Target markets	Industry, logistics, infrastructure, municipalities
Ticker symbol	A3EVV1

Business Overview

Innok Robotics Group is a fast-growing German deep-tech group specialising in physical AI and robotics, in particular autonomous mobile robots (AMRs). Its unique selling point is a broader range of applications: whereas most AMRs are confined to indoor environments, Innok Robotics' systems navigate autonomously indoors as well as in outdoor and all-terrain settings, while meeting the highest safety standards. The company has established a strong customer base among both mid-sized enterprises and major international corporations, including Siemens, BASF, ABB, John Deere, ZF and Volvo.
